

TYLER NGUYEN

<https://www.linkedin.com/in/tyler-nguyen-62a5a4101>

Education

University of California, Berkeley

B.S. Electrical Engineering and Computer Sciences (CSE)

2014 - 2018

GPA: 3.35

- CS 61A: Structure and Interpretation of Computer Programs
- CS 61B: Data Structures and Advanced Programming
- CS 61C: Machine Structures
- Physics 7B: Heat, Electricity, and Magnetism
- Math 54: Linear Algebra and Differential Equations
- EE 16A: Designing Information Devices and Systems
- CS 70: Discrete Mathematics and Probability Theory
- CS 170: Efficient Algorithms and Intractable Problems
Fall 2016
- CS 188: Introduction to Artificial Intelligence
Fall 2016

Experience

- **Medium One Developer** 2016 - present
Medium One is a platform for gathering and processing data from virtually any IoT device. I assisted in implementing a SPI driver used on a microcontroller board to interface with an external Wi-Fi module in addition to programming the software that allows it to authenticate and transmit data to our servers.
- **UC Berkeley Open Computing Facility (OCF) Staff Member** 2015 - present
The OCF provides free services to students, faculty, and staff, including printing, web hosting, and UNIX shell and email accounts. As a staff member, I provide on-site computer lab support and maintenance of the infrastructure required for the facility's services.

Skills

Programming Languages

- Proficient in: Python, Java, C
- Experience with: Bash, Scheme, MIPS Assembly

Other Software

- Microsoft Office (Word, PowerPoint, Excel)
- Adobe CS6 (Photoshop, Illustrator, InDesign)
- Git version control system
- Docker application container system
- L^AT_EX typesetting system
- REAPER Digital Audio Workstation

Notable Projects

- **Scheme** (Python)
Developed a Scheme interpreter to demonstrate understanding of recursion, scoping, and parsing.
- **Gitlet** (Java)
Designed and implemented a simplified version of the Git version control system based on serialization.
- **MIPS Assembler** (C and MIPS Assembly)
Implemented an assembler and linker that handles a subset of the MIPS instruction set.
- **PageRank on Spark and Amazon EC2** (Python)
Implemented a radically simplified version of the PageRank algorithm using a Python MapReduce framework.

Extracurriculars

- **Computer Science Undergraduate Association (CSUA) Member** 2015 - present
CSUA supports computer science students by facilitating industry events, hackathons, and workshops.
- **Tutoring** 2012 - present
High school essay writing, math, biology, physics, and SAT/ACT preparation
- **Interests**
Programming, audio engineering, retro gaming

Honors and Awards

- National Merit Finalist
- LSI Chairman's Scholarship
